madbee

30th May 2019

To Whom It May Concern:

This is to certify that G.Akash, a student of 2nd year of Computer Science in Amrita University has done his internship in our company during the month of May 2019.

He worked alongside our development team on HTML, Wordpress and .Net. He had developed scripts for automating time-consuming manual tasks like scraping of large volumes of data from sites and re-sizing multiple images in a single click.

During the stint of internship, he was punctual, hard-working and always willing to take up new responsibilities.

We wish him the best of luck in his new endeavours.

Yours Sincerely,

Gopal M Seetharaman
Business Director

MADBEE MOBILITY SOLUTIONS PVT. LTD.
